THE NEW TURN IN AFFAIRS.

What Commissioner Dent Has to Say About

the Water-Rate Decision.

Shortly after the decision yesterday by Justice Hagner, in the water-rent case, a representative of THE REPUBLICAN called at the Columbia Building and had an interview with Commissioner Dent. He said that he was not surprised at the result, and that the Commissioners had been sustained upon every point except the one of levying the tax this year. A few days ago his attention was called to the latter fact, and he had it incorporated in the hill, brought by Mr. Darneille, through Assistant District Attorney Miller, so that all disputed points might be acted upon. Now it was only a delay of the case until January next, when the increased tax would again be levied. The settling with those who had paid their water rent would create some trouble, but it could be done. The money, after the rent for the last six months of the present year was paid, would be refunded to those wishing it, or if they preferred it could remain to their credit on the books, anticipating the next years' assessment. The sum collected is \$51. 758.15. This decision will require a reduction of the expenses in the Water Registrar's office. and compel the furloughing of a number of the employees. The matter will receive the immediate consideration of the Commissioners.

The Cruise of the Tuttle. The pleasure party that went down the river a couple of weeks ago aboard the sloop Tuttle arrived home early yesterday morning. The crew give glowing accounts of their trip and speak in the highest terms of the reception they eccived at the different summer resorts and anding places along the river. Among the stopping places were Cobb's Island, Fortress Monoe, Piney Point and Blackiston's Island, all of roe, Piney Point and Rizekiston's Island, all of which were well stocked with beautiful and bewitching young ladies. To sum up the conquests of the bold sailor boys would be a difficult matter. What with dancing, fishing, crabbing, bathing and sailing the time passed but too quickly. Not too quickly, however, to clude the rays of old Sol, and when they cast anchor at the wharf it was hard to say whether they were inhabitants of the United whether they were inhabitants of the United States or of the South Sea islands. The crew were Vinton Coombs, captain; James M. Wright, first mate, Victor Mindeleff, Charlie Hine and Leslie Dungan. They sailed under the name of the S. O. Y. C.

The necessary ticket will be seenred to-day, and Ponton will be sent to Wheeling. W. Va., where he will begin to strike out for himself. Politicians Taking Advantage of the Crowd -Dr. Reiley's Sermon at the Prayer-Meeting Yesterday Morning - A Temperance Mass-Meeting-Other Events at the Meeting in the Grove.

> The Methodists in Camp. WASHINGTON GROVE CAMP, MONTGOMERY COUNTY, MD

August 14, 1879. But little has occurred since yesterday out by the adoption of a suggestion that a majority of the stockholders pay up their shares in full. All present walked up to the treasurer's table and paid the amount opposite their mases, a handsome sum being realized. The solicitor for stock subscriptions made a statement, showing that twenty new names were secured yesterday. The meeting was a very harmonious one, and now that the site question has been settled work will be commenced at once. The project is meeting with encouragement on every hand, and the success of the fair is now assured.

Rev. Dr. Ames and the presiding elder both delivered exhortations during the services.

THE MORNING SERVICE.

The prayer-meeting this morning was the most profitable that has been held. It was conducted by Rev. B. P. Brown, who had previously invited all the parents especially to be present. He made an earnest effort to arouse them to a sense of their duty to their children and friends to endeavor to lead them to Christ during the meeting. By half-mast ten o'clock and friends to endeavor to lead them to Christ during the meeting. By half-past ten o'clock the encampment had become pretty well thronged with people, and at the sound of the bell one or two thousand persons were soon sitting quietly in and around the tabernacle, awaiting the beginning of service. The pre-liminary part of the service was conducted by Mr. Brown, after which Dr. Reiley preached on Colossians, 2d chapter and 10th verse, "And ye are complete in Him, which is the Head of ye are complete in Him, which is the Head of all principality and power." God alone, he said, is absolute or infinitely

A Gang of Young Thieves Broken Up.

A gang of young colored thieves, who have infested the northwestern section of the city for some time past, have been settled at last by Detectives McDevitt, Voss, Coombs and Acton. Their depredations have been of the kind known as sneak-thieving, and among were left on hat-racks in the passageways of the houses of those gentlemen. Colonel Corbin was the heaviest loser, \$160 in cash, a gold watch and chain and new suit of cloths being the booty secured by the scamps. The gang had their headquarters on Rock Creek, where they were captured by the officers hast Wednesday and yesterday. They were taken to Headquarters and interviewed and, afterwards to Police Court, but a hearing in their cases was continued until to-morrow. A great many articles have been recovered and are held at Headquarters for identification. The names and ages of the rascals are: Dick Ross, 17; Joseph Hays, 17; William Lane, 15 and Charles Thomas, 18. It is to be hoped that the one class it is in its incipiency; with them the one class it is in the scriptural completeness in Christ, as a macrof of the grade of a complete, conscious restoration of title to be avenued. He then dealt at length on the normal condition of a justified soul, the importance to be attached to justified and what it implied. Having done that, he said: If so strong a case can be made out for the justified, what real advantage is enjoyed by the sanctified? In a comprehensive sense the great distinction between the two classes of believers under consideration is in their relation to the required moral fitness for heaven. With the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency; with the one class it is in its incipiency. question we may say, in general terms, that scriptural completeness in Christ, as a matter of present realization, reaches the grade of a the spirit of title, the assurance of title, the power of title and the safety of title will, in their different degrees, vary the enjoyment of title. These he discussed successively, showing them to be infinitely increased by sanctification, and closed with an earnest exhortation to all believers to seek the blessing of completeness in Christ. The sermon met with universal favor and made a frefound impression. One intelligent lady remarked, "That's the kind of sanctification I believe in, and desire," and others said it was the clearest exposition of the doctrine of entire santification they had ever heard.

THE TEMPERANCE MASS MEETING this afternoon was attended by a great crowd this afternoon was attended by a great crowd, and was the occasion of great interest. Several interests were presented before the exercises proper began. Mr. Brown called attention to a recently published book, entitled "Sabbath Home Readings" by Rev. J. W. Arrangements are being made for an interesting and novel swimming-exhibition to take place at the Natitorium at an early date. The man who will do it is A. J. Before undertaking this task Mr. Donaldson will swim from Alexandria to Washington, and he will also give an exhibition at Marshall Hall, on the occasion of the testimonial excursion tendered to Professor Odlum on the 26th

The wife of Mr. John Hays, dairyman, met with a serious accident at ten o'clock Wednesday night, by falling from the porch of her residence, on the Seventh-street road, a distance of some nine feet. It is supposed that while falling her head struck some projection, as she received a frightful scalp wound, had her skull slightly fractured and was otherwise injured about the head. Dr. B. B. Adams was called in and rendered medical assistance. At a late hour last night the lady was resting quietly.

Stn: I think the article published in to-day's issue of your paper, over the signature of D. W. Glassie, about caps the climax and calls for some of the facts on the other side. I have known Felix Quander for upwards of twenty years, and he has always borne a character the reverse of that sought to be set up by the writer of that article. Quander has evidently imposed upon his credulous attorney. The idea that this is a case of bull-dozing is preposterous. I have been a life-long Republican, and Quander is surrounded by neighbors of that political persuasion. It is a fact that Jus-tice Kirby and Constable Sartin are a terror to evil-doers, but those who behave themselves have no trouble with them. It is to be hoped that these attempts to force public opinion in the favor of a persistent violator of law will cease.
